Problem statement

إستشارة
COUNSELING

If you want to consult, you must come to the workplace, because there is no remote consultation, and the prices of the provided consultations are also high.

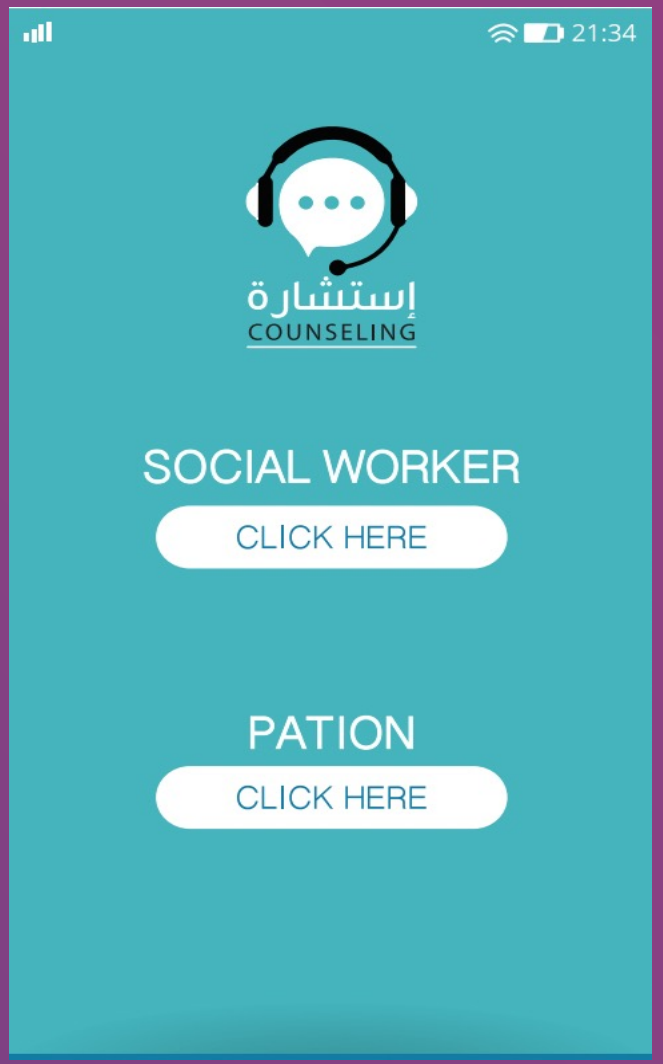
What are the new things you learned creating this application?

1. Firebase

LAUNCH

إستشارة
COUNSELING

When the user opens the application, this interface appears and is divided into two parts: the first section is for the social worker, and the second section is for the patient



LAUNCH

Here is a new registration for the patient and the registration contains a username, mobile number, e-mail and a secret code

The user must save his information and register correct information
